Introduction

The first idea was to have a Multiplier event with more than 40 participants and all the partners to be part of it. We made an Invitation letter, Agenda, Participant list, etc. All needed for the Multiplier event in Sofia were made in February 2020. Nikanor sent to partners Info pack, agenda and all needed in order each of them to prepare their traveling and presentations for the ME in Sofia.

Nikanor's team prepared everything:

- invite people send them the invitation letter,
- book the conference hall,
- made a banner especially for the event,
- spoke with some of the associated partner to be part of it and present how they participate in the project and
- spoke with some of the direct target group – people who were involved as a educators to tell more what they learn, what they like, did they find all the project outputs useful for them, which were the most interesting and what could be improve, etc.

Before the event, we made more than 3 skype meetings with the partners because of this situation of COVID-19. We want to keep us update for the measures in each of the partner countries. But the measures were different and changes every day. Partner per partner start writing emails to us that they will be unable to travel and participate in the event.

That's way we made another skype meeting in which we decided each of them to make his own video with the following points:

- Integration of the project results in partner organizations
- Sustainable embedding of project results and products in partner communities
- Opportunities for future exploitation of results in other educational sectors and areas

Before the event one of the user of the output – Krasimira Galabova (24 years old, young and unemployed. Mother of two sons) decided to make a

Co-funded by the
Erasmus+ Programme
of the European Union

video of herself in which she wants to tell more how useful are the project results and how she starts her own business thanks to the project outputs.

We changed the date because we need time to re-send the invitation, rearrange the hall, made a new agenda, etc. Finally, the Multiplier event took part on 09.03.2020 in the Congress hall of Downtown hotel, Sofia, Bulgaria. The attendance were 22 local and 8 international people. We take into consideration all the needed measures which our government told - 2 meters between the participants, using masks, when each of the participant sign the participant list bring back the pencil to be disinfected, etc. At all it was organized in a strange situation, but for the people were interesting and most important is that for them is useful! The fact that they came in such a situation show us how good is this project and the outputs are very useful for the learners and educators.

Agenda and logistics

Profiles of participants

In the Multiplier event took part 22 local and 8 international (Macedonia, Netherlands, Turkey, etc.) people. This people were: Adults learners, Unemployed, Adult educators, Nikanor's staff

Promotion of the event

Co-funded by the
Erasmus+ Programme
of the European Union

The event were promote via:

- Emails
- Nikanor's webpage
- Nikanor's FB
- Nikanor's LinkedIn
- Our experts and staff to their connections
- Our teachers and trainers to their adult learners
- In one University – UNSS (University for National and world economy)

Feedback on the event

To all of the participants directly after the Multiplier event were sent an Evaluation form (prepare by Wisamar).

The question are:

- ✓ What is your overall impression of the event?
 - ✓ What do you think about the following statements?
 - The event was interesting and informative.
 - The event was well organized and structured.
 - The event was inspiring and useful for my work.
 - I can imagine to use or recommend the project results.
- ✓ We appreciate your comments and suggestions regarding any of our project results:
 - Training course

Co-funded by the
Erasmus+ Programme
of the European Union

- Online platform
- Webinars
- Videos about successful Start-ups
- Business Idea Database
- Resource Library for learners & educators

We use Google formularies and the answers were generate it after some of the participants answer the form. We share the received answer to Wisamar which will make a final satisfaction report for the Multiplier events.

At all we could say that the feedback which we received is for a very good organized event in this hard situation with a flexible decisions to introduce and present everything needed and done through the project! The online platform is used and it comes in the top moment. The training course is with a high quality and very practical. Resource Library is one more useful place for both – learners and educators to find more materials. And the videos and the business card gave the opportunity for a lot of young and unemployed to learn through practice, through real stories and invent their own idea to start a business.

Conclusions

At all it was tough to work in such a different situation, but the partnership consortium is very strong and in the end we succeed.

Great project awarded for a best project in adult education form EAEA. Practical videos and business cards! Well structure of the training course and a platform, which could be used free online!

The Multiplier event in Sofia achieved the aim and show all of the results in front of the project target group. Of course, in normal situation, we could invite more people, it could be bigger, but sometimes the quality is not quantity! In our point of you we make our best and people appreciate it! They will disseminate the project results through their connections and social accounts.
