

Johannes is 27 years old and he lives in Germany. He was never very **successful** at school. He prefers to do things with his hands. He loves going everywhere by bike and his father taught him how to repair it when he was a child. As a teenager he **pimped** his bikes and those of his friends.

Bikes have always been his hobby. He never thought he would be able to turn this into a business. But he has been running his own bike repair shop for 3 years already. He transformed two old garages into his workshop.

Nowadays, riding a bike is becoming popular again. And people are looking for experts on bikes whom they can trust with their beloved **vehicle**. So, it is all about the relationship with the customers. Then they will also come back.

He also offers workshops for anyone interested, but especially kids and teens, on how to repair their own bikes and how to take care of them. This way kids learn something useful and get to know other kids who share the same **passion**.

Glossary

- **successful**: achieving the wanted results
